

Exp No: 7 SERIAL COMMUNICATION USING ARDUINO WITH PROTEUS

AIM:

To write an Embedded C program for serial communication using Arduino Uno and Proteus

SOFTWARE REQUIRED:

- Proteus 8 software.
- Arduino IDE software

CIRCUIT DIAGRAM:

PROGRAM:

```

sketch_mar02a $
void setup()
{
  Serial.begin(9600); // send and receive at 9600 baud
}

int number = 0;

void loop()
{
  Serial.print("Number is ");
  Serial.println(number); // print the number
  delay(500); // delay half second between numbers
  number++; // to the next number
}

```

OUTPUT:

RESULT:

Thus the program has been successfully verified and executed.
